

SINLOIHI COLOR

SF-3000N Series

SINLOIHI COLOR BASE SF-3000N Series is a water-based fluorescent sub-micron pigment that is formaldehyde free. The SF-3000N Series provides excellent color brilliancy and light-fastness when used for water-based fluorescent ink such as marker ink, roller ball pen ink, plastic nib pens, etc. The SF-3000N Series offers smooth and easy writing performance due to the sub-micron particle size, especially when it is used as stationery pen ink.

■ Recommendable Applications

- Water Based Line Marker
- Water Based Ink

■ Specifications

Product Name	SF-3014N SF-3015N SF-3017N SF-3037N	SF-3022N	SF-3038N
Solid Content	38±1.5	35±1.5	30.0±1.5
P.H.Value	6.0±1		
Viscosity(mPa · s)	5.0 ~ 20.0		
Specific Gravity	1.05±0.05		
Average Particle size(μm)	< 0.2		
Net weight	25 kg		
Packaging	PE Drum		

■ Available Colors

Formaldehyde Free:
Contains no formaldehyde material
