

SINLOIHI COLOR

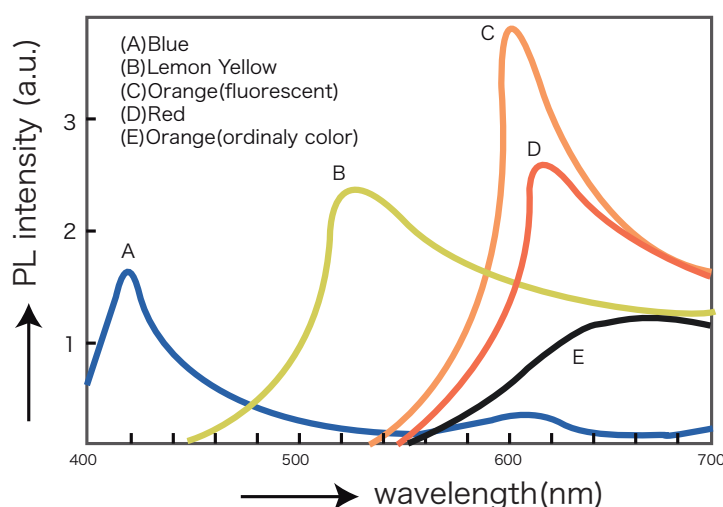

FA-200 Series

SINLOIHI COLOR FA-200 Series has superior solvent stability, and suitable for silk screen ink, PVC coating and gravure ink etc.

•Color Availability

FA-202 Green
FA-203 Red
FA-204 Orange
FA-205 Lemon Yellow
FA-206 Orange Yellow
FA-207 Pink
FA-227 Magenta
FA-257 Violet
FA-209 White

•emission wavelength

•Properties

Average particle size	3.5~4.5 μ m
Softing point	Over 150°C
Heat stability	Printed on PVC film (printed by ink which is made from FA-200) is not discolored when heated at 190°C for 10 minutes.
Solvent stability	FA-200 series can be used with aromatic hydrocarbons solvents and ketene solvents. The part of the alcohol has infelicity by a combination.

•Application

PVC coating, Silk screen ink for PVC, Paper coating, Film coating, Paint, etc.

Package: Paper bag
Net weight: 10kgs
